23 January 2012

Dear Ian

Hope you had a great Christmas and that you have a great New Year.

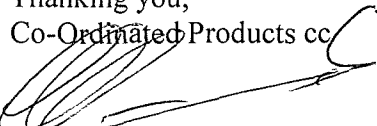

I thought I would drop you a note to let you know of the latest goings on with our Pepper Spray system that you installed.

Thankfully, during December we had just one break-in to our factory. They broke down our front door and attempted to enter our offices on the first floor. They did not even get to open the office door as the Gas Spray was set off. They ran off empty handed.

I would like to thank you for the system, which you have installed on our premises and I am sure it is the main reason we have not had further break-ins. As you know, we were regularly broken into.

Good luck with your product and I would gladly recommend Compusafe's Chilli Pepper Spray Alarms to any company.

Thanking you,
Co-ordinated Products cc

Alfredo Fernandes
