28 February 2012

To whom it may concern:

Dear Sir / Madam,

During the early hours of Sunday the 5th of February 2012, we were broken into. This was our first break-in since having had the pepper gas spray installed by Ian Colls of Compusafe. The theft was limited to what was right at the reception door as the thieves were unable to stay in the office for any length of time due to the intensity of the pepper gas.

We would definitely recommend it to anyone as an excellent deterrent, as we were broken into on the 4th of January 2010, by thieves using the same modus operandi and suffered extensive loss to the value of R72 000,

If you have any queries, please do not hesitate to contact us.

Yours faithfully

E J Cadman
