To Whom It May Concern:

RE: Reference Letter – Compusafe

Up until when we started using Compusafe's anti-theft equipment, we were being burgled approximately twice a year, where mainly the more expensive PC's were stolen. I would have considered these to be major burglaries.

Since we installed Compusafe's products (approx 3 yrs ago), we have had 2 petty burglaries (nothing like previously). From the previous burglary, one flat screen TV was stolen (no anti-theft equipment).

I personally believe that their products work and are effective in curbing theft. I would recommend them to any company who value their assets, particularly IP.

Kind regards

Mark Valentine
