Testimonial for Compusafe

It is my pleasure to write this letter of reference for Mr Ian Colls, Managing Director of Compusafe Electronic Asset Security, and to testify to the effectiveness of the Chilli Pepper Spray product that he provides.

Mr Colls was prompt to respond to our call out request. He offered excellent advice and assistance shortly after our break in. He consistently demonstrated integrity, professionalism and technical ability. Our installation was done expertly when promised and his aftermarket service is excellent.

The Chilli Pepper Spray system is phenomenal. After our initial break in 30 May 2016, the thieves returned three weeks later. The system deterred the intruders from entering our main offices. They managed to break through a door leading to our warehouse, but ended leaving with nothing. We then installed a further two units to cover the potential weakness.

Since then we have had no further incidents. Not even an unwanted alarm activation.

I can honestly say than I am a huge fan and supporter of the product.

Yours faithfully

Louis van der Walt

Branch manager Durban
