26<sup>th</sup> January 2009

Spirax Sarco had 5 break-ins and attempted break-ins 2 years despites having armed response and after hour guards. Even using locally based security companies, burglars using high power weapons made the guards retreat and wait for back up. In the short space of time burglars had forced access into the electric perimeter fence and gate. The same happened to our premise entry door and security gate and entry gained.

Our PC towers were replaced 3 times but the event caused disruptions so we fitted "Compusafe" tower safes in early 2008 to prevent the theft. We have not had another incident since. I wish we had fitted them earlier.

YOURS FAITHEFULLY

MIKE OAKLEY  
Regional Manager

Thanking you.
