Compusafe Kwa Zulu Natal

Attention: Mr Ian Colls

Dear lan,

## **RE: BREAK IN AT OUR PREMISES**

We moved into our new premises in Mahogany Road, Mahogany Ridge in May 2010.

Within two weeks of moving in, our premises were 'hit' by smash & grab thieves who took one of our computers. It was then that the product 'PROLINE XXL ANTITHEFT CABLES' was introduced to us. All our computers received the Compusafe system, which effectively secured our computer screen and towers not only to each other, but to the wall as well.

Ten days ago, our premises were again hit by smash & grab thieves. However, this time they got away with nothing as they encountered the cables that locked all the computers securely (just leaving a mess for us to clear up).

Thank you for your product, which ultimately saved a few computers & screens from 'walking' out the door.

Kind regards

Anthony Done

Regional Operations Manager
Kwa Zulu Natal
